

PASOS A SEGUIR:

- 1) CONECTAR A UNA RED WIFI
- 2) ABRIMOS SAFARI Y CARGAMOS LA SIGUIENTE PÁGINA: <https://www.opencable.es/apple/>

The image is a collage of six screenshots from an iPhone Safari browser, illustrating the steps to install a mobile network profile. Each screenshot is annotated with orange arrows and a red target icon pointing to the specific action to be taken.

- Top Left:** Safari browser showing the opencable website. An arrow points to the Apple logo with the text "Haz clic aquí".
- Top Right:** A system dialog box asking "Este sitio web está intentando abrir Ajustes para mostrar un perfil de configuración. ¿Quieres permitirlo?" with "Ignorar" and "Permitir" buttons. An arrow points to "Permitir".
- Middle Left:** Safari browser showing the "Instalar perfil" screen for "Openmovil_v2.0". An arrow points to the "Instalar" button.
- Middle Right:** Safari browser showing the "Introduce el código" screen with six empty circles. An arrow points to the "Introduce el código" field.
- Bottom Left:** Safari browser showing the "Aviso" screen with "Instalar" and "Cancelar" buttons. An arrow points to "Instalar".
- Bottom Right:** Safari browser showing the "Perfil instalado" screen with an "OK" button. An arrow points to "OK".

- Desactivar el BUZÓN DE VOZ: **##002# + LLAMADA**
